

GIVING ACCOUNTS

Make giving more impactful.

Charitable giving does more than help the recipient—it brings significant emotional rewards to the giver too. Make it easy and affordable for employees to support the causes they care about and you'll have a powerful recruitment and retention tool. TASC Universal Benefit Account has a variety of programs to help you do just that.

JOINTLY-FUNDED ACCOUNTS

Create opportunities for employers and employees to give together and watch your impact grow exponentially! These accounts can be used for a variety of needs

Offer individual employees a simple way to give to any of thousands of 501(c)3 organizations with a **GiveBack Workplace Giving Account**. Employees can opt to make a one-time or recurring donation and choose to fund the giving account from their paycheck or directly from their bank account via ACH. Funds are tax deductible upon donation.

Floods and fires, hurricanes and tornadoes. When major catastrophes happen, people want to do their part and a **Disaster Relief Fund Account** makes it easy to respond. Employers can set up an account in advance, then distribute accumulated funds when a disaster occurs, or have an as-needed fund drive. Both employers and employees can donate funds, which are tax deductible upon donation.

Sometimes disaster hits closer to home. When a fellow employee has a personal crisis the **Employee Crisis Fund Account** gives both co-workers and the employer a way to show support during a challenging time.

Support each other in good times too with a **Scholarship Fund Account**. Thanks to employer and employee tax-advantaged donations, this account supports ongoing education with scholarships for the children of employees. The employer sets the amount of scholarship dollars to be awarded and the criteria award recipients must meet.

TASC makes it **easy** for your employees to share their time, financial support and talents with the people and causes they **care** about most
