

Flexible solutions for timekeeping & attendance tracking

Manage labor costs, maximize profits.

Time & Attendance with TASC Payroll Plus does away with tedious manual processes, reduces fraudulent overtime and costly errors, and enables simplified, accurate reporting. With Payroll Plus Timekeeping, we give you the tools you need to easily collect, manage, and organize your data via the Internet, freeing up valuable time on your calendar.

See the advantage of professionally hosted services.

With nothing to install on your network, you won't worry about IT support, or the cost or work involved with operating and licensing third-party software.

Enjoy seamless time tracking and reporting.

Our timekeeping and attendance tracking solutions are configured to your company rules and accurately track employee time while interfacing with the data collection device that best fits the need of your organization.

- Biometric hand or fingerprint clock options (ethernet or modem).
- Proximity card reader option on fingerprint clocks.
- Mobile or web clock in/out.
- Automatic clock polling and merging of in/out times.
